LOCAL AND PERSONAL

THE SCHOOL HAS CLOSED.

The 1932-33 term of the Hondo High School came to a close with the Commencement exercises at the High School Auditorium last Friday night. The beautifully decorated stage afforded an appropriate setting for the occasion, and the large class of seven girls and sixteen boys together with the Board of Trustees and Faculty members taxed the stage to its capacity.

The exercises opened with two appropriate vocal selections, "Bells of St. Mary's" and "Have A Smile", by the High School Choral Club, under direction of Mrs. George Brush.

David Mechler, high point boy and the youngest in his class, was the Salutatorian and Miss Irene Barkuloo, high point girl, was the valedictorian.

Miss Irene Saathoff rendered a beautiful violin solo following the Salutatory and after the Valedictory Misses Chaney, Wilson, Brucks, Finger and Speece sang "Darkness on the Delta" and "Playing With Fire".

The graduation address was delivered by Rev. J. L. Yelvington of San Antonio. Rev. Yelvington stressed the importance of setting on a definite purpose early in life, selecting a purpose in harmony with the purposes of God and to live true to that purpose at all times.

Following the address, Dr. H. J. Meyer, President of the School Board, delivered the diplomas to the following graduates:

Irene Barkuloo, Genevieve Brucks, Charles Embrey, August Finger, Thomas Finger, Joe Haegelin, Dorothy Hicks, Thomas Holloway, Preston Langford, David Mechler, Charlotte Miller, George Muennink, Marion Muennink, Harris Parsons, Homer Pichot, Howard Rothe, Frank Rucker, Mathes Saathoff, Elvira Senewers, Jimmy Smith, Clifford Stiegler, Jean Strawn and Tusculda Wurzbach.

Superintendent J. G. Barry followed with the presentation of awards of merit to members of the boys' athletic organizations for outstanding performances during the past four years.

The event then closed with Rev. Yelvington invoking the Benediction and the 1932-33 term of Hondo High School came to a close.

ST. JOHN'S SCHOOL CLOSING.

The closing exercises for St. John's School scheduled for last Thursday night were postponed on account of the rain and took place, instead, on Sunday night, May 28, in the School Hall. A lengthy but entertaining program was held, composed of songs, recitations, plays and piano selections, and closed with an address by the pastor, Rev. T. A. Flynn.

The exercises, under the direction of the Sisters, opened with a hymn, "As the Dewy Shades of Even", which was followed by the Seventh Grade salutatory address given by John Zerr. John is a son of Mr. and Mrs. Robert Zerr.

Several short and amusing dramas, "The Doctor's Assistant", "Maid to Order" and "The Gordian Knot", were presented by different groups of the school children, and a playlet, "Primary Graduates" by the tiny tots was greatly enjoyed.

There were a number of recitation and song combinations with drilla, featuring the boys and girls of the school.

Two piano selections, rendered by Misses Dorothy Zerr and Ethelyn Ney, preceded the valedictory address which was offered by Edmund Ney, son of Mr. and Mrs. Ed. Ney.

A song, "Harmon Days are Gliding", concluded the children's part in the entertainment, and Father Flynn concluded the program with brief but weighty remarks on the necessity for religion in a child's education, and after graduation the importance of a training in Catholic colleges and universities. He concluded his address with praise directed to the teachers, the good and faithful Sisters of St. John's School.

WOMEN'S MISSIONARY SOCIETY.

The Women's Missionary Society of the Methodist Church met with Mrs. T. McLaugherty Monday, May 29. The meeting was opened with a prayer by Mrs. J. A. Horger.

Mrs. D. H. Fly, Mrs. T. C. Barnes and Miss Bertha Newton discussed the last three chapters of the book, "Facing the Future in Indian Missions", giving the most important facts and events in the life of Indians of today and yesterday.

The Bulletin of Missionary News for April and May was presented at this meeting.

The meeting was closed by repeating the Missionary Creed, led by Mrs. D. H. Fly.

The following were present: Mesdames J. G. Newton, T. C. Barnes, J. A. Horger, J. S. Fly, D. H. Fly, B. Carle, J. H. Almira, Miss Bertha Newton, and the hostess, Mrs. T. McLaugherty.

RURAL SCHOOL COMMENCEMENT.

Twenty rural schools of Medina County, with a roll of 74 students, participated in the Seventh Grade Commencement held Saturday afternoon, May 27, in the Hondo High School Auditorium.

Prof. W. N. Saathoff opened the meeting with an address of welcome, which was followed by the audience singing "America", accompanied by Miss Josie Rothe at the piano, and Misses Irene Saathoff and Ethel Rothe playing violins.

The invocation was read by Prof. Saathoff and was followed by a delightful vocal selection, Tosti's "Goodbye", by Miss Bernice Rihn of Riomedina. As an encore Miss Rihn sang a German number, "Still Bie Nacht" by Bohn. The piano accompaniment was played by Mrs. Milton Wurzbach.

In a brief address Prof. Saathoff gave a resume of the rural school work in the County for the past year and stressed particularly the success of the health program. The climax of the work of the rural schools was the gathering of that day, the Commencement, Mr. Saathoff stated.

A male quartet, composed of Jack Bradley, Frank and B. C. Rucker, and Herbert Buss, sang "In the Valley of the Moon" and "Have You Ever Been Lonely". They were accompanied by Miss Josie Rothe.

The audience was delighted with two beautiful numbers, "Entermezzo" from "Cavalleria Rusticana" by Mascagni, and "Liebestraum" by Liszt, rendered by a violin ensemble composed of Misses Irene Saathoff and Ethel Rothe, with Miss Josie Rothe playing the piano accompaniment.

The Firecrackers of Hondo High School, composed of Misses Bernice Speece, Bernice Chaney, Mary Emma Finger, Mary Ruth Wilson and Genevieve Brucks, were heard in two popular songs, "Darkness on the Delta" and "Playing With Fire". Miss Wilson accompanied.

The principal address to the graduates was given by Prof. J. C. Cochran, Superintendent of San Antonio Schools, who chose his subject from the Century of Progress, and enlarged on "Progress and its Challenge to Youth". Prof. Cochran is quoted as saying that the success of boys and girls reared on the farm is due to the fact that they have greater challenges to meet.

The musical part of the program was concluded by Miss Irene Saathoff playing two lovely violin numbers, both by Fritz Kreisler and being "The Old Reformer" and "Shon Martin".

The Seventh Grade diplomas were presented the fine group of boys and girls by Prof. Saathoff, and the exercises came to a close with the Benediction pronounced by Rev. P. E. Lancaster.

There was a large crowd of visitors from all over the county present at the exercises.

NOTICE LUTHER LEAGUE.

The Luther League of St. Paul's Church will meet at the regular time on Sunday evening, June 4. The program will be in charge of Misses Hermine and Regina Nester.

O. E. S. INSTALLATION.

The new officers of the Hondo Chapter, Order of the Eastern Star, were installed by a beautiful and impressive ceremony Wednesday night, May 31st. Refreshments of punch and angel food cake were served at the conclusion of the installation.

ENTERTAIN LARGE GROUP.

Mr. and Mrs. Frank H. Schweers extended one of the delightful courtesies of the summer months, when they entertained a large group of friends with a bridge party Tuesday evening. Fern and pot plants in bloom formed a simple but lovely setting for the party.

Prizes were awarded Mrs. F. B. Knopp and Mr. L. E. Heath for high score. Mrs. Garland Martin and Mr. Earl Starnes each received trophies for being the first to hold eighty honors in bridge.

At the close of the evening a delicious fruit punch was served.

The personnel included: Dr. and Mrs. W. H. Smith, Dr. and Mrs. T. B. Knopp, Dr. and Mrs. O. B. Taylor, Mr. and Mrs. Earl Cureton, Mr. and Mrs. Ivan Bedell, Mr. and Mrs. Ben Oefinger, Mr. and Mrs. Earl Starnes, Mr. and Mrs. L. E. Heath, Mr. and Mrs. Horace Bradley, Mr. and Mrs. Garland Martin, Mr. and Mrs. Robert Kollman, Mesdames J. M. Finger, L. J. Brucks, Hilda Bohnen, John Becker, Fletcher Davis, Miss Josephine Brucks, Messrs. Alfred Schweers and Herman Finger, and the hosts, Mr. and Mrs. Schweers.

LADIES' BRIDGE CLUB.

Mrs. L. E. Heath entertained the personnel of the Ladies' Bridge Club and several additional guests at bridge last Thursday afternoon. The bridge was held in the flower decorated living room, purple artichokes being the predominating blossoms.

High score prize was awarded Mrs. F. H. Schweers and cut prize went to Mrs. Earl Starnes. Mrs. B. R. Eichenroht received the guest prize.

The hostess served a refreshing range ice with angel food cake.

Those present were Mesdames Earl Cureton, Ivan Bedell, P. C. Jagge, Ben Oefinger, B. R. Eichenroht, Earl Starnes, J. M. Finger, Ed. Convey, L. J. Brucks, Alice Reinhart, W. O. Rothe, O. H. Miller, Horace Bradley, O. B. Taylor, Fletcher Davis, F. H. Schweers and Miss Lilian Brucks.

DIED.

Adolph Harm Eckhart, aged 39 years, died at 6:30 o'clock P. M., Wednesday, May 31, 1933, at the home of his brother, Willie Eckhart, in the Hondo creek, after an illness of only a few days duration.

Deceased was born August 17th, thirty-nine years ago and was the youngest child of the late Mr. and Mrs. Christian Eckhart. He was a world war veteran and was never married.

The remains are being held at the Harger funeral parlors pending the arrival of two sisters, Mrs. Pauline Goodnight of Colorado and Mrs. Helena Harlbardier of Kenedy, Texas. The funeral will be held Saturday and interment will be in Oakwood cemetery.

BAPTIST NEWS NOTES.

Woe to them who are at ease in Zion, said the Prophet. The testing time is now upon God's Israel. Shall we seek our comfort, or our pleasure because, forsooth the weather is now warm, and because we are, perchance, selfish? Certainly, if we are wise, we will not. Now is exactly the time to develop the very best in Christian character. Mere formalities are tiresome, and should be; but the highest and best in attainment and achievement, lie before us and lure us on to the most worthy and heroic effort. The plague of sin is in the land. Manhood and womanhood, those for whom Christ died, are being despoiled by treacherous worldliness and wasted by evil. Our Father, through His courageous Prophet says: "Look unto me, all ye ends of the earth, and be ye saved; for I am God and there is none else." Shall not we, His people, earnestly repeat this solemn invitation. Sin, deceptive, treacherous sin is the plague of every land, including our own; Sabbath desecration, fleshly indulgence, which wars against the soul; neglect of the spiritual needs of man's immortal nature. It is righteousness which exalts a nation, through the salvation of the individual. The quiet, reverent, worshipful atmosphere of the House of God invites you to contribute your presence. Bible School at ten o'clock. The topic: Jesus Faces Betrayal and Denial. Scripture, Mark 14: 17-26. You will find a place to help. At the morning hour, eleven o'clock, the address of the Pastor will make special appeal to the youth of today, to whom God and the future look.

The Baptists of the South and the world lost this week one of their most outstanding men in the death of Rev. Dr. W. J. McGlothlin, of Greenville, South Carolina. Dr. McGlothlin was on his way by automobile to Washington, D. C., to attend the meetings of the Southern Baptist Convention when suddenly another car collided with his machine, head on, and both he and his wife were killed. The driver of the other car was also killed. Alas! Let every man be ready for the solemn summons.

At 8:15 P. M. our regular Gospel message, to which you are invited. Junior and Senior B. Y. P. U's at 7:30; Misses Emma Buss and Billy Fusselman, leaders.

Let us all make the worship and work of God the inspiration of our summer days. We will be thereby happier and more useful. Owing to the heat, the services will be shortened. We shall look for you.

Pastor.

ST. PAUL'S LUTHERAN CHURCH.

A message commensurate with the spirit of the Pentecost will be heard next Sunday at the English service at 10:30 A. M. This day marks the birthday of the Christian Church. Be sure you take part in this renowned Birthday Celebration.

The Luther League will assemble at night for the regular monthly meeting, beginning at 7:15.

Do not forget "Vacation Church School" which begins Monday, June 5, at 8:30 A. M. We invite children from 6 to 12 years of age. What child does not like to sing, to color, to play, to work jigsaw puzzles, to enjoy good live stories? We offer what the child likes to do, and yet teach thereby the wholesome lesson of Eternal Life. Let your boy or girl come; bring them and let them do what they like to do under the best of Christian influence! Look again at the date and time—and be there. There are no charges.

Service June 11, German at 10:30 A. M.; English at 8 P. M.

June 18, service at 10:30 in English.

The Ladies' Aid Society will meet on Wednesday, June 7, at the home of Mrs. Alice Reinhart. The meeting begins at 2:30. It would be encouraging to see a 100% attendance. Never before was there so much to be done in the service of the Ascended Lord as there is in our present day.

"Thunder Beast" Breathes Again at World's Fair

Portion of the Sinclair Prehistoric Exhibit at the World's Fair—the first attempt ever to reproduce out of doors the conditions of life as they existed a hundred million years ago.

Called "Thunder Beast" by scientists because the ground trembled under his 40-ton tread, the brawny Brontosaurus will "breathe" and "live again" at the Chicago World's Fair.

How this 70-foot dinosaur and his reptilian kin will appear to visitors to the Sinclair Prehistoric Exhibit is shown in the left in the illustration. In the center, the ferocious Tyrannosaurus Rex, fiercest of dinosaurs, is engaged in a battle with his ancient foe, Triceratops, while a Duck-billed Dinosaur watches the fray from the coolness of a nearby pond. The odd beast in the upper right-hand section of the picture is Stegosaurus who defended himself with the most weird backbone ever known. The Sinclair exhibit will cover nearly an acre of ground. Some idea of the huge size of the dinosaur models, which will

be animated, may be had by comparing them with the people shown in the picture.

P. G. Allen, of Fort Wayne and Hollywood, dinosaur-maker extraordinary to the motion-picture industry, was commissioned by the Sinclair Refining Company to recreate these odd forms of life that roamed the earth millions of years ago while Nature was mellowing and filtering the crude oil from which today's motor oils are refined.

NOTICE OF PROPOSED AMENDMENT TO THE CONSTITUTION OF TEXAS.

S. J. R. No. 3.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IX of the Constitution of Texas be amended by adding thereto a section to be Section 3, which shall provide:

"Section 3. (1) Holding the belief that the highest degree of local self government which is consistent with the efficient conduct of those affairs by necessity lodged in the Nation and the State will prove most responsive to the will of the people, and result to reward their diligence and intelligence by greater economy and efficiency in their local governmental affairs, it hereby is ordained:

"(2) Any county having a population of sixty-two thousand (62,000) or more according to the then last Federal Census may adopt a County Home Rule Charter, to embrace those powers appropriate hereto, within the specific limitations hereinafter provided. It further is provided that the Legislature, by a favorable vote of two-thirds of the total membership of both the Senate and the House of Representatives, may authorize any county, having a population less than that above specified, to proceed hereunder for the adoption of a Charter; however, as a condition for such authorization, it is required that notice of the intent to seek Legislative authority hereunder must be published in one or more newspapers, to give general circulation in the county affected, not less than once per week for four (4) consecutive weeks, and the first of such publications shall appear not less than thirty (30) days next prior to the time an Act making proposal hereunder may be introduced in the Legislature. No County Home Rule Charter may be adopted by any county save upon a favorable vote of the resident qualified electors of the affected county. In elections submitting to the voters a proposal to adopt a Charter (unless otherwise provided by a two-thirds vote of the total membership of each House of the Legislature) the votes cast by the qualified electors residing within the limits of all the incorporated cities and towns of the county shall be separately kept but collectively counted and the votes of the qualified electors of the county who do not reside within the limits of any incorporated city or town likewise shall be separately kept and separately counted, and unless there be a favorable majority of the votes cast within and a favorable majority of the votes cast without such collective cities and towns, the Charter shall not be adopted. It is expressly forbidden that any such Charter may in any way affect the operation of the General Laws of the State relating to the judicial, tax, fiscal, educational, police, highway and health systems, or any other department of the State's superior government. Nothing herein contained shall be deemed to authorize the adoption of a Charter provision inimical to or inconsistent with the sovereignty and established public policies of this State, and no provision having such vice shall have validity as against the State. No Charter provision may operate to impair the exemption of homesteads as established by this Constitution and the Statutes relating thereto.

"(3) a. A Charter hereunder may provide: the continuance of a County Commissioners' Court, as now constituted, to serve as the governing body of a county to operate hereunder; or, may provide for a governing body otherwise constituted, which shall be elective, and service therein shall be upon such qualifications, for such terms, under such plan of representation, and upon such conditions of tenure and compensation as may be fixed by any such Charter. The terms for service in such governing body may exceed two (2) years, but shall not exceed six (6) years. In any event, in addition to the powers and duties provided by any such Charter, such governing body shall exercise all powers, and discharge all duties which, in the absence of the provisions hereof, would devolve by law on County Commissioners and County Commissioners' Courts. Further, any such Charter may provide for the organization, reorganization, establishment and administration of the government of the county, including the control and regulation of the performance of and the compensation for all duties required in the conduct of the county affairs, subject to the limitations herein provided.

"b. A Charter hereunder may provide that Judges of County Court (including that County Court designated in this Constitution), and Justices of the Peace be compensated upon a salary basis in lieu of fees. The jurisdiction of the County Court designated in this Constitution, and the duties of the Judges thereof, may be confined to that general jurisdiction of a probate Court which elsewhere is defined in this Constitution. The office of Justice of the Peace may be made either elective or appointive. Other than as herein provided, no such Charter shall provide for altering the jurisdiction or procedure of any Court. The duties of District Attorney and/or County Attorney may be confined to representing the State in civil cases to which the State is a party and to enforcement of the State's Penal Code, and the compensation of said attorneys may be fixed on a salary basis in lieu of fees.

"c. Save as hereinabove and hereinafter otherwise provided, such Charters, within the limits expressed therein, may invest the governing body to be established for any county electing to operate hereunder with the power to create, consolidate or abolish any office or department, whether created by other provisions of the Constitution or by statute, define the duties thereof, fix the com-

penation for service therein, make the same elective or appointive and prescribe the time, qualifications and conditions for tenure in any such office; save, that no such Charter other than as hereinbefore authorized, shall provide to regulate the status, service, duties or compensation of members of the Legislature, Judges of the Courts, District Attorneys, County Attorneys, or any office whatever by the law of the State required to be filled by an election embracing more than one county. Excepting herefrom nominations, elections or appointments to offices, the terms whereof may not have expired prior to the adoption of this Amendment to the Constitution, at such time as a Charter provision adopted hereunder may be in effect (save as to those offices which must continue to be elective, as herein elsewhere specified), all terms of county officers and all contracts for the giving of service by deputies under such officers, may be subject to termination by the administrative body of the county, under an adopted Charter so providing, and there shall be no liability by reason thereof.

"d. Any county electing to operate hereunder shall have the power, by Charter provision, to levy, assess and collect taxes, and to fix the maximum rate for ad valorem taxes to be levied for specific purposes, in accordance with the Constitution and laws of this State, provided, however, that the limit of the aggregate taxes which may be levied assessed and collected hereunder shall not exceed the limit or total fixed or hereafter to be fixed, by this Constitution to control counties, and the annual assessment upon property, both real, personal and mixed, shall be a first superior and prior lien thereon.

"e. In addition to the powers herein provided, and in addition to powers included in County Home Rule Charters, any county may, by a majority vote of the qualified electors of said county, amend its Charter to include other powers, functions, duties and rights which now or hereafter may be provided by this Constitution and the statutes of the State for counties.

"(4). Any county operating hereunder shall have the power to borrow money for all purposes lawful under its Charter, to include the refunding of a lawful debt, in a manner conforming to the General Laws of the State, and may issue therefor its obligations. Such obligations, other than those to refund a lawful debt, shall not be valid unless authorized by a majority of all votes cast by those resident qualified voters of the area affected by the taxes required to retire such obligations, who may vote thereon. In cases of county obligations, maturing after a period of five (5) years, the same shall be issued to mature serially, fixing the first maturity of principal at a time not to exceed two (2) years next after the date of the issuance of such obligations. Such obligations may pledge the full faith and credit of the county; but in no event shall the aggregate obligations so issued, in principal amount outstanding at any one time, exceed the then existing Constitutional limits for such obligations and such indebtedness and its supporting tax shall constitute a first and superior lien upon the property taxable in such county. No obligation issued hereunder shall be valid unless prior to the time of the issuance thereof there be levied a tax sufficient to retire the same as it matures, which tax shall not exceed the then existing Constitutional limits.

"(5) Such Charter may authorize the governing body of a county operating hereunder to prescribe the schedule of fees to be charged by the officers of the county for specified service, to be in lieu of the schedule for such fees prescribed by the General Laws of the State; and, to appropriate such fees to such funds as the Charter may prescribe; provided, however, no fee for a specified service shall exceed in amount the fee fixed by General Law for that same service. Such Charters as to all judicial officers, other than District Judges, may prescribe the qualifications for services, provided the standards thereof be not lower than those fixed by the General Laws of the State.

"(6) a. Subject to the express limitations upon the exercise of the powers by this subdivision to be authorized, such Charters may provide (or omit to provide) that the governmental and/or proprietary functions of any city, town, district or other defined political subdivision (which is a governmental agency and embraced within the boundaries of the county) be transferred, either as to some or all of the functions thereof, and yielded to the control of the administrative body of the county. No such transfer or yielding of functions may be effected, unless the proposal is submitted to a vote of the people, and, unless otherwise provided by a two-thirds vote of the total membership of each House of the Legislature, such a proposal shall be submitted as a separate issue, and the vote within and without any such city, town, district, or other defined governmental entity, shall be separately cast and counted, and unless two-thirds of the qualified votes cast within the yielding defined governmental entity, and a majority of the qualified votes cast in the remainder of the county, favor the proposed merger, it shall not be effected. In case of the mergers hereby authorized, without express Charter provision therefor, in so far as may be required to make effective the object of the proposed merger, the county shall succeed to all the appropriate lawful powers, duties, rights, procedures, restrictions and limitations which prior to the merger were reposed in, or imposed upon, the yielding governmental agency. Particularly, it is provided that the power to create funded indebtedness and to levy taxes in support thereof may be exercised only by such procedures, and within such limits, as now are, or hereafter may be, provided by law to control such appropriate other governmental agencies were they to be independently administered. Such

mergers may be effected under proposed contracts between the county and any such yielding governmental agency, to be approved at an election as hereinbefore provided for. In order to increase governmental efficiency and effect economy the county may contract with the principal city of the county to perform one or more of its functions, provided such contracts shall not be valid for more than two (2) years.

"b. In case of the partial or complete merger of the government of a city operating under a Home Rule Charter, with the government of a county operating hereunder, those city Charter provisions affected thereby shall cease to control, and the county Charter provisions shall control.

"c. When any embraced incorporated city or town elects to merge its governmental functions with those of the county under the provisions hereof, such Charter may provide for defining or redefining the boundaries of such cities and towns, provided, however, that in defining or redefining the boundaries of such cities and towns, such boundaries may be extended only to include those areas contiguous to such cities as are urban in character; and as to such cities or towns and for the benefit thereof the county, in addition to the primary city and county tax herein authorized and any other lawful district tax, may levy and collect taxes upon the property taxable within such city or town as defined or redefined, within the limits authorized by Sections 4 and 5 of Article XI of this Constitution, (or any Amendment thereof) for incorporated cities according to the population, provided that no tax greater than that existing at the time of such merger or for any added purpose shall be imposed upon any such city or town unless authorized by a majority of all votes cast by the resident qualified voters of such city or town.

"d. Areas urban in character though not incorporated, under appropriate Charter provision may be defined as such by the governing body of the county, provided, however, that no portion of the county shall be defined as an urban area unless it has sufficient population to entitle it to incorporate under the then existing laws of the State; and no such urban area, when created, shall be vested with any taxing or bonding power which it would not possess if it were operating as a separate incorporated unit under the then existing Constitutional and Statutory provisions of this State; and provided further that the governing body of the county for the government of such areas shall have and exercise all powers and authority granted by law to the governing bodies of similar areas when separately incorporated as a city or town, and such areas shall be subject to additional taxation within the same Constitutional limits as control taxation for a city or a town of like population. Likewise such Charter may provide for the governing board of the county subject to existing Constitutional and statutory provisions to define, create and administer districts, and have and exercise the powers and authority granted by the Constitution and laws relative to the same.

"(7). No provision of his Constitution inconsistent with the provisions of this Section 3, of Article IX, shall be held to control the provisions of a Charter adopted hereunder, and conforming herewith. Charters adopted hereunder shall make appropriate provision for the abandonment, revocation, and amendment thereof, subject only to the requirements that there must be a favorable majority of the vote cast upon such a proposal, by the qualified resident electors of the county; and, no Charter may forbid amendments thereof for a time greater than two (2) years. The provisions hereof shall be self-executing, subject only to the duty of the Legislature to pass laws (consistent herewith) which may be necessary to carry out the intent and purposes hereof. Further, the Legislature shall prescribe a procedure for submitting to decision, by a majority vote of the electors voting thereon, proposed alternate and elective Charter provisions."

Section 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of the State at an election to be held throughout the State on the fourth Saturday in August, 1933, at which election all ballots shall have printed thereon the following:

"For the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

"Against the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

Each voter shall scratch out one of the above listed clauses on such ballot, leaving unscratched that particular clause which expresses his vote on the proposed Amendment to which it relates.

Section 3. The Governor of this State is hereby directed to issue the necessary proclamation ordering an election in conformity herewith to determine whether or not the proposed Constitutional Amendment set forth herein shall be adopted, and the Governor shall have the same published as required by the Constitution and laws of this State.

W. W. HEATH,
Secretary of State.

NOTICE OF PROPOSED AMENDMENT TO THE CONSTITUTION OF TEXAS.

S. J. R. No. 30.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That article 3 of the Constitution of the State of Texas be amended by adding thereto another section, Section 51a, which shall read as follows:

"Section 51a. The Legislature shall have power to authorize by law the issuance and sale of the bonds of the State of Texas, not to exceed the sum of Twenty Million (\$20,000,000.00) Dollars, bearing interest at a rate not to exceed Four and one-half (4½%) per centum per annum; and payable serially or otherwise not more than Ten (10) years from their date, and said bonds shall be sold for not less than par and accrued interest and no form of commission shall be allowed in any transaction involving said bonds. The proceeds of the sale of such bonds to be used in furnishing relief and work relief to needy and distressed people and in relieving the hardships resulting from unemployment, but to be fairly distributed over the State and upon such terms and conditions as may be provided by law and the Legislature shall make SUCH APPROPRIATIONS as are necessary to pay the interest and principal of such bonds as the same becomes due. The power hereby granted to the Legislature to issue bonds hereunder is expressly limited to the amount stated and to two years from and after the adoption of this grant of power by the people. Provided that the Legislature shall provide for the payment of the interest and redemption of any bonds issued under the terms hereof from some source other than a tax on real property and the indebtedness as evidenced by such bonds shall never become a charge against or lien upon any property, real or personal, within this State.

Section 2. The foregoing Constitutional amendment shall be submitted to the qualified voters of the State on the Twenty-sixth day of August, A. D. 1933, at which election all voters favoring such proposed amendment shall write or have printed on their ballots the words, "For the amendment to the Constitution providing that the Legislature may authorize the issuance of bonds of the State of Texas, not to exceed Twenty Million (\$20,000,000.00) Dollars, for relieving the hardships of unemployment and for the necessary appropriations to pay said bonds"; Those voters opposing said amendment shall write or have printed on their ballots the words, "Against the amendment to the Constitution providing that the Legislature may authorize the issuance of bonds of the State of Texas, not to exceed Twenty Million (\$20,000,000.00) Dollars, for relieving the hardships of unemployment and for the necessary appropriations to pay said bonds";

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution for amendments thereto.

W. W. HEATH,
Secretary of State.

NOTICE OF THE PROPOSED AMENDMENT TO THE CONSTITUTION OF TEXAS.

H. J. R. No. 43.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Subsection (s), of Section 20, of Article XVI, of the Constitution of Texas, be amended so as to hereafter read as follows:

"(a): The manufacture, sale, barter or exchange in the State of Texas of spirituous, vinous or malt liquors or medicated bitters capable of producing intoxication, or any other intoxicant whatever except vinous or malt liquors of not more than three and two-tenths per cent (3.2%) alcoholic content by weight, (except for medicinal, mechanical, scientific or sacramental purposes) are each and all hereby prohibited. The Legislature shall enact laws to enforce this Section, and may from time to time prescribe regulations and limitations relative to the manufacture, sale, barter, exchange or possession for sale of vinous or malt liquors of not more than three and two-tenths per cent (3.2%) alcoholic content by weight; provided the Legislature shall enact a law or laws whereby the qualified voters of any county, justice's precinct, town or city may, by a majority vote of those voting, determine from time to time whether the sale for beverage purpose of vinous or malt liquors containing not more than three and two-tenths per cent (3.2%) alcohol by weight shall be prohibited within the prescribed limits; and provided further that in all counties in the State of Texas and in all political subdivisions thereof, wherein the sale of intoxicating liquors had been prohibited by local option elections held under the laws of the State of Texas and in force at the time of the taking effect of Section 20, Article 16, of the Constitution of Texas, it shall continue to be unlawful to manufacture, sell, barter or exchange in any such county or in any such political subdivision thereof, any spirituous, vinous or malt liquors or medicated bitters, capable of producing intoxication or any other intoxicant whatsoever, unless and until a majority of the qualified voters in said county or political subdivision thereof voting in an election held for such purpose shall determine it to be lawful to manufacture, sell, barter and exchange in said county or political subdivision thereof vinous or malt liquors containing not more than three and two-tenths per cent (3.2%) alcoholic content by weight, and the provision of this subsection shall be self-enacting."

Section 2. The foregoing Amendment to the Constitution shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the fourth Saturday in August, 1933. At this election all voters favoring the proposed Amendment shall write or have printed on their ballot the following words: "For the Amendment to the Constitution of Texas, authorizing the sale of vinous or malt liquors of not more than three and two-tenths per cent (3.2%) alcoholic content by weight." Those voters opposing said proposed Amendment shall write or

have printed on their ballot the following words: "Against the Amendment to the Constitution of Texas, authorizing the sale of vinous or malt liquors of not more than three and two-tenths per cent (3.2%) alcohol content by weight."

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and Amendments thereto.

W. W. HEATH,
Secretary of State.

NOTICE OF PROPOSED AMENDMENT TO THE CONSTITUTION OF TEXAS.

S. J. R. No. 32.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 1-a of Article VIII of the Constitution of the State of Texas be amended so that hereafter read as follows:

"Article VIII, Section 1-a: Three Thousand Dollars (\$3,000.00) of the assessed taxable value of all residence homesteads as now defined by law shall be exempt from all taxation for all State purposes; provided that this exemption shall not be applicable to that portion of the State ad valorem taxes levied for State purposes permitted within those counties or other political subdivisions now receiving any remission of State taxes, until the expiration of such period of remission, unless before the expiration of such period the board or governing body of any one or more of such counties or political subdivisions shall have certified to the State Comptroller that the need for such remission of taxes has ceased to exist in such county or political subdivision; then this Section shall become applicable to each county or political subdivision as and when it shall become within the provisions hereof."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State at an election to be held throughout the State on the fourth Saturday in August, 1933, at which election all voters favoring said proposed Amendment shall write or have printed on their ballots the words:

"For the Amendment to the Constitution of the State of Texas exempting Three Thousand Dollars (\$3,000.00) of the assessed taxable value of all residence homesteads from State taxes."

Those voters opposing said proposed Amendment shall write or have printed on their ballots the words:

"Against the Amendment to the Constitution of the State of Texas exempting Three Thousand Dollars (\$3,000.00) of the assessed taxable value of all residence homesteads from State taxes."

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and Amendments thereto.

W. W. HEATH,
Secretary of State.

"GOLD DIGGERS" COME TO
EMPIRE.

A theatrical event of unusual in-
terest will be the presentation of
"Gold Diggers of 1933" at the Empire Theatre in San
Antonio starting Friday, June 2.
This will be the first showing of
this musical spectacle anywhere in
the South. National release date of
the picture is set for Sept. 4, and the
Empire was enabled to obtain it for
June showing only through special
arrangements with the producers.
"Gold Diggers of 1933" is said to
be the most lavish musical show yet
produced on film, far outshining the
spectacular "42nd Street". Nearly
all of the principal players in "42nd
Street" will be seen again in "Gold
Diggers of 1933", including Ruby
Keeler, Ginger Rogers, Dick Powell,
Guy Kibbee and Ned Sparks. In ad-
dition to these, Joan Blondell, War-
ren William and Aline MacMahon
are in the cast, as well as a chorus of
200 gorgeous, glorious girls.
Preparations are being made at
the Empire to handle record-break-
ing crowds during the run of the
picture, and hundreds of out-of-town
visitors are expected.

QUIHI NOTES.
When thou passest thru the waters,
I will be with thee; and thru the
rivers, they shall not overflow thee;
when thou walkest thru the fire, thou
shalt not be burned; neither shall the
flame kindle upon thee. For I am the
Lord, thy God. Is. 43: 2-3.
Here is room for a new sect. If
you are a true Christian, they might
argue, you must go thru rivers and
fires without hurt. No, even fanatics
are too wise for that. They'll not
try it, as little as they dare to lift
venomous serpents or drink poison-
ous drinks without harm. Marc. 16:
18. They know it would put them
out of commission. And yet, the un-
derlying thought of the text is true.
The Lord does not command dare-
devil feats, but He promises: I will
be with you in your tribulations,
worries, heart-aches and dangers, as
great as those mentioned. And those
who can look back to a long career
under His guidance, protection and
preservation know that His promise
holds good. Such assurance must
draw closer to Him in a life sancti-
fied and dedicated to Him.
Those were solemn moments when
Mr. Milton Oefinger, son of Mr. and
Mrs. Jacob Oefinger, and Miss Hilda
Mumme, daughter of Mr. and Mrs.
F. Mumme, were united in holy wed-
lock on May 24th. The parents of
both parties were the witnesses.
Bridegroom and bride belonged to the
regulars in life and church attend-
ance; both were members of the
church choir and the Luther League,
and the latter, in addition, was a
teacher in our Sunday school, and
often for the choir and the church
service. How sadly we shall miss
their faithful assistance! May the
Lord reward. After a brief trip to
Corpus Christi and other points, they
shall make their home in San An-
tonio. A great host of friends are
with us when we wish them God's
richest blessings for their future.

The fine rain on Ascension Day
prevented the Memorial on cemetery
grounds, as was planned, but no one
looked disappointed. The service
was well attended, many coming from
distances, and their thoughts of
thanks and love went back to those
happy days. A particularly pleasant
feature was the presence of several
friends, well stricken in age, whose
memories reach farther back into the
pioneer stage, silently saluting com-

Friends of Miss Ina Holloway regret to learn of her serious accident which occurred two weeks ago in a Boston, Massachusetts, hospital, where she is in training. Reports to her mother, Mrs. J. W. Holloway, and family here, are that a medicine chest fell on her hand and crushed several fingers and necessitated nineteen stitches in the injured hand. It was thought to be healing when blood poisoning set in, and it was feared she would lose several fingers or perhaps the hand. There has been no recent word from Boston as to whether or not the amputation of the injured member was necessary. Ina's many friends in Hondo hope for the best for her and wish her a speedy recovery.

Henry R. Wernette returned Thursday of last week from a visit to his son, E. J. Wernette, in El Paso. Mr. Wernette arrived the morning after the fire at his place and was greatly pleased at the way his friends and neighbors had protected his property from spread of the fire the night before his arrival. While visiting at El Paso, Mr. Wernette made several excursions to outlying points, being caught in a sleet up at Coluderoft, New Mexico, as well as visiting other points of interest in both New and Old Mexico. His son, E. J. Wernette, is district manager at El Paso for the National Life and Accident Insurance Co.

MORE ABOUT THE CAMPAIGN FUND.

Grateful Texans are expressing their appreciation for the increases in commodity prices that are bringing better conditions to the State, by subscribing generously to Texas' share of the deficit of the Democratic National Committee, according to a statement from the State Democratic Headquarters in Austin.

An assessment based on ten cents for each democratic vote cast in the 1932 election has been levied on the 254 counties in Texas. The amount that will be realized if the quotas are met in full will be approximately \$75,000.00, which is ten per cent of the National Committee's deficit. "This will not be out of keeping," said Frank Scofield, Finance Director for Texas, "as the recognition received and expected by Texans from the Administration will be proportionately greater than the quota allotted us."

The Texas Democratic National Committee forwarded \$5,000.00 to James A. Farley this week, making a total of \$15,000.00 thus far credited to Texas' quota. It is believed that an additional \$10,000.00 has already been collected by County Chairmen who are awaiting completion of their quotas before making remittance. This very encouraging showing is due, according to Roy Miller, Director of the National Organization of Texas, to the improved conditions that directly resulted from the fearless leadership exhibited by President Roosevelt. Cotton, grain, and cattle have all advanced greatly in price. The resulting improvement has come more rapidly in the rural sections of the State. The counties whose principal resources are agricultural have responded more promptly to the appeal for funds than have the industrial centers. Quite a number of counties in the sheep country have completed their quotas.

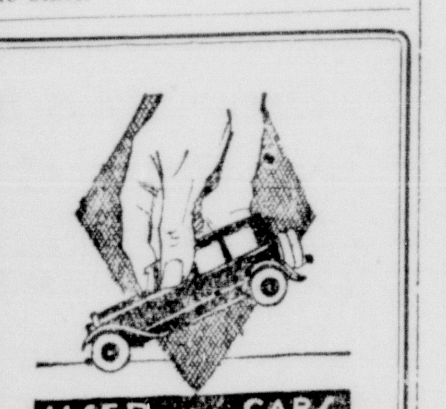

The above is from headquarters at Austin. Medina County's standing as we go to press is as follows:

Precinct	Amount due	Paid
1 N. Hondo	\$26.20	\$.20

Democratic Executive Committee,
Medina County, Texas.

Mrs. Louis Scherrer, accompanied by her daughter, Mrs. Irvin Isom, and her two sons, Sherrell and Larry, and Miss Octavia Davis surprised Mrs. Scherrer's sister, Mrs. Fletcher Davis, with a call yesterday afternoon. It was Mrs. Scherrer's birthday and she reversed the custom and arranged her own surprise party. Mr. Scherrer, traveling back to San Antonio from the West, joined the party here and all returned to San Antonio after an all too brief a stay.

Sunday, June 4th, is Pentecost Sunday and the Quihi Gun Club is preparing for their annual celebration on that day. The annual prize shooting will take place at Gun Club Hall, a big basket picnic will be on the grounds and a double-header ball game will form the afternoon's entertainment. That night a big dance will be held in the hall and music by Paul Tschirhart and his orchestra. The public is invited to attend.

Among recent loans made in Texas by the Reconstruction Finance Corporation is a \$25,000.00 loan to the First National Bank of Hondo. This information is carried in the news dispatches of this morning's daily papers. Although the Reconstruction Finance Corporation has been functioning for about a year at Washington this is the first loan made to Medina County parties of which we have any knowledge.

A Good Moral Risk

The man who is to himself true,
Will have the courage to dare and do;
Will stoop not to things low or mean.
He keeps his conscience always clean.
The bank calls him a good moral risk.
When his note is due he steps up brisk,
And either pays or else renews,
They stand on him little chance to lose.
The Hondo State Bank will always plan
Some way to help the honest man.

The Biggest News Since Fresh Gas...

That Good Gulf Gasoline is now lubricated!

Gulf stations from Maine to Mexico are now offering a motor fuel that surpasses everything that has gone before.

This great fuel is new in everything but name. It actually gives greater mileage and cuts repair costs—because it lubricates the upper cylinder and valves.

The new lubricating Good Gulf Gasoline contains an upper cylinder lubricant made by an exclusive Gulf process. This lubricant—correctly blended with that Good Gulf Gasoline, the famous *fresh gas*

—makes today's greatest non-premium fuel for modern motors!

It lubricates the intake valves, prevents sticking, and forms little or no carbon!

If you want to get more and lower cost miles out of a gallon of gas, try the new Good Gulf Gasoline today. It doesn't cost a penny more.

LUBRICATED GASOLINE.

Houston, Texas, May 25, (Special) Lubricated gasoline, a distinct innovation in motor fuels, was announced today by the Gulf Refining Company through O. H. Carlisle, District Sales Manager. The new product is the result of extensive experimentation in the Gulf Refining Company laboratories, and is the answer to the problems presented by lubrication engineers by the increased demand of the motoring public for high speed motors.

The new product is being marketed under the slogan "That Good Gulf Gas—Now Lubricated" at no extra cost. Mr. Carlisle pointed out. Several features of the new fuel, according to Mr. Carlisle, are: correct lubrication of the valve seats and top of the valve stem, which tends to prevent drying and pitting of valves; lubrication to the upper part of the cylinder walls, thereby reducing wear on cylinders and pistons as well as piston rings.

Through use of lubricated gasoline it is now possible to design motors with smaller clearance between piston and cylinder wall and also to use tighter-fitting oil rings. In some cases two oil rings are used, all of which reduce crank case motor oil consumption.

Ease of starting with lubricated gasoline is believed assured by the fact that when combustion chambers are flooded with lubricated gasoline the choking the motor valves are less apt to stick, while use of "That Good Gulf Gas—Now Lubricated" assures longer life for certain parts of the motor such as valves, guides and piston assembly.

With reference to the lubrication of gasoline, Mr. Carlisle quotes C. B. Neal, Research Manager, Society of Automotive Engineers, as follows:

"We are now facing a rather new type of automobile engine—the tendency for the past few years has been to increase the speed of engines."

"At first we encountered excessive oil consumption above certain critical speeds, but blow-by and other features of ring and piston functioning have so improved as to prevent excessive oil consumption even at the high speeds now common—personal experiences and reports from others lead me to believe that some of these engines may come close to experiencing a deficiency in oil supply at moderate speeds."

"If the oil supply actually failed, I agree that lubricated fuels would not solve the problem, but if some of these new engines are coming close to the danger point in the meagerness of the oil supply at moderate speeds it seems reasonable that a lubricated fuel would offer a sufficient panacea to bring about satisfactory car operation."

In Germany and England lubricated gasoline has been used widely for as long as two years with notable success, Mr. Carlisle pointed out. Also, the lubrication of outboard motors is taken care of through mixing lubricating oil with the gasoline. Many large truck and bus operators have been using lubricated gasoline for some time even though it was necessary for them to purchase a proper oil to mix with their gasoline. Most car manufacturers recommend mixing lubricating oil with gasoline during at least the first 2000 miles of driving the new car."

"I would like to state," Mr. Carlisle said, "that in using 'That Good Gulf Gas—Now Lubricated' automobile owners may be assured of correct special upper-cylinder lubrication under normal driving conditions and at the ordinary driving speeds. No extra charge is made for our new product."

At a recent meat show in Young county culminating a season of hog and beef butchering, curing and packing, the county farm and home demonstration agents estimated that 100 hives and 600 hams worth \$6200 on foot had been converted into products worth \$15,000.

MAKES RECORD FOR ECONOMY.

In an economy test run, held at Bartlesville, Okla., a new Ford V-8 Tudor Sedan set up the remarkable record of an average of 18.8 miles per gallon of fuel for 10,054.9 miles. The run was sponsored by the Bartlesville Daily Enterprise.

Packed into the run were more miles than the average driver covers in a year's time. The run was made under all kinds of weather conditions including heavy rain and strong winds. Temperatures reached as high as ninety-four degrees.

Operating at a speed of fifty miles or more per hour over good and bad roads, up and down hills, through rain, fog and mud, it averaged 18.8 miles per gallon, using Phillips sixty-six oil and gasoline for the entire trip. No oil was added between 1000-mile changes and not one cent expended for repairs.

In view of the hot weather and gruelling pace set, a remarkable feature was that no water was added to the radiator during the entire trip. All points on the itinerary were reached on scheduled time.

The Ford V-Eight proved unusual economy of operation and ability to withstand the most gruelling abuse. Drivers were high in their praise of the comfort, handling ease and performance of the car.

For ten days and nights the car was on the road. The route included the cities of Tulsa, Guthrie, Oklahoma City, El Reno, Enid, Ponca City and other points, and was so arranged that the car was kept on the road 23 hours out of every 24, coming into Bartlesville as at the end of each thousand miles, for lubrication and oil change.

YOUR VACATION.

Make it worth big money. Every day is an opportunity to accomplish something toward future success. A wasted hour is an opportunity cast aside. The habit of loafing, of "fooling away" your time without accomplishing anything worth while spells "little fellow."

High School students and teachers, what are you going to do with your vacation? Do something to increase your usefulness, your earning power, to get more success and pleasure out of life.

You can complete a course with us and step right into good positions in the fall business. A business education is the only way to insure a good salary twelve months of the year. Two month's salary after completion with us usually pays all expenses of a course. We secure positions for graduates.

The merit of our courses is proven by the fact that we are now graduating more students than any other school in the Southwest. 5,000 Byrne trained students will tell you of the value of a summer spent in Byrne College. It pays dividends for the balance of your lifetime.

LOVE'S MESSAGE.

By Amie L. De Berger.

Dear Heart, in lonely hours,
When shadows etch the wall,
Do you hear a voice sending
A far-off, loving call?

Faith keeps the love light glowing
In eyes you long to see,
And as the stars are shining
Do you then think of me?

Someone, who cares, is dreaming
And in the golden west
The sunset holds a promise
For those who meet the test

Vibrating through the treetops,
Deep as a hidden sigh,
There comes a message, ringing,
List or 'twill pass you by.

Thus, sent by Love's own cipher,
In accents soft and low,
Rings forth the words, 'I love you',
When summer breezes blow.

WINTER MOOD.

By Michael D'Andrea.

Winter came
Like a carpenter
Bringing a chest of tools.

In it, the wind
The saw,
The plane—
The hammer.
Lee for varnishing, the sun
And snow—
For paint.

O work begun!
Will he never tire?
Or is his soul—
A ball of fire?

THAT IS LIFE.

By Jeanette Nourland.

To urge one on to nobler, better deeds,
To furnish wholesome food on which thought
feeds;
To sow and harvest grain instead of weeds,
That is life.

To help a neighbor in his needful days,
To tide him over rough and stormy ways;
Calls forth no need for special song of praise,
That is life.

To ever lift instead of dragging down,
To learn to laugh and smile instead of frown,
That brings one honest fame and rich renown,
That is life.

He who can lighten burdens, pains and woes,
Spread cheer and sunshine everywhere he goes;
Will make a path that ever brighter grows,
That is life.

AFTER SUMMER RAIN.

By Anton Romatka.

The wind runs through the rushes,
Then skips across the plain;
The sky with color flushes
Of many tinted stain;
Wet diamonds on the brushes
Their sparkle now attain;
The wood with bird notes gushes—
God, bless the summer rain.

PUNISHMENT.

By Fletcher Davis.

In the sombre night that covers me
With a veil through which I may not see,
I shall scorn to be the helpless pawn
Of torturing, chilling fears
Or yield to a weakling's tears
But in courage wait the coming dawn!

For however be the toll of fate
Or tiresome the vigil's lonely wait,
I shall not for hopeless losses pine,
Let them be sore as they may,
Nor from toilsome duty stray—
For Punishment's ends at last are mine!

PASTORAL.

By Anton Romatka.

The gates of the morning are wide ajar,
While birds fling rapturous music afar;
And perfumes on wings of the breezes ride
Which brush the dawn with her curtain aside;
The sky is a dome of wonderful hue,
Scrubbed bright by the wind—the sun shining
through;
The plain is like velvet, tinted with green,
With diamond-dew crusted blossoms between;
The orchards are laden, ripe is the grain,
And cattle are roaming over the plain—
Just one little page from Nature's own tome,
And right in the middle my cottage, my home.

Of the sun that smiles upon us

Twelve bushels of velvet bean seed costing \$39 and planted between corn rows for winter grazing for 437 head of cattle saved W. G. Farrier of Morris county a feed and labor bill of about \$425 this past winter. Herebefore Mr. Farrier has been running his cattle in stalk fields after crop harvesting time until about January when the stalks and grass were ordinarily eaten up, and then feeding his cattle the remainder of the winter on cottonseed meal and hulls. Due to heavy death losses in severe winters and low cattle prices he foresaw that he must make changes in his cropping plan and called on the county agent who suggested velvet beans for late winter grazing. "In renting land to tenants in the future I shall ask each one to first agree to plant enough velvet beans for winter grazing, knowing they will be increasing the fertility of my soil at the same time", declares Mr. Farrier. As a result of this demonstration 8 farmers nearby have pooled their orders for 1200 pounds of velvet bean seed to plant in their corn this year.

The importance of Texas in the wool industry continues to grow, even if there is still no processing of the raw wool done in the State. The 1932 Texas wool clip was 57,105,000 pounds, setting a new high record that is approximately twice as large as that of 1926 and three times the total of a decade ago. The nation's clip, on the other hand, showed a material decrease, with a total of only 344,534,000 pounds, the Texas contribution to which was more than 16 per cent of the total as against 14.3 per cent in 1931. How long Texas will continue the production of an increasing percentage of American wool with no development whatever of the processing of that product is a question. The entire Texas crop is shipped out of the State without even the rougher process of washing being given it to eliminate the thousands of pounds of grease and dirt on which freight is paid to destination.

Texas was one of the very few States to show an increase in its export business for 1932. According to Department of Commerce figures, the total of Texas exports for the first nine months of 1932 was \$209,835,320 as compared with \$203,313,312 for the same period in 1931. Some States, Ohio among them, showed as much as a 50 per cent decrease in that period.

Porfirio Garcia of Palito Blanco, Jim Wells County, reports two colonies of cut ants have damaged his orchard and made it almost impossible to have a home garden for the past 15 years. These two colonies of cut ants were treated with 1-2 gallon of carbon disulphide per colony on February 9 at a cost of \$2.00 for the two colonies and on March 7 these two colonies were completely exterminated. Mr. Garcia said that it would be impossible to estimate the damage done by these two colonies of cut ants, and that it is a great relief to have his orchard and home garden free from the continuous damage of cut ants.

Selling 54% of his dairy herd only lowered his production 29%, is the record of Otto Goldapp's herd near Alice in Jim Wells county. On November 17, 1932, Mr. Goldapp sold 15 cows which left him 13 cows in milk. He improved his dairy management and feeding methods after reducing his herd and it is the better care and feeding that were most important factors in increasing the daily production from .5 to .8 of a pound of butterfat per cow per day. Mr. Goldapp has a trench silo with 160 ton capacity that was filled for the first time in 1932. He has 15 acres of Rhodes grass for permanent pasture, and he plants about one acre of barley per cow for winter pasture and one acre of sudan grass pasture per cow for spring, summer and fall pasture.

—AAT—

A permanent pasture has cut the feed bill one-fourth and increased butter sales \$2.50 per week for W. L. Taylor of the Bridge Valley Community in Fayette county. He figured the feed bill can be cut three-fourths in May and the milk flow increased, because the cows will hardly go into their stalls for the grain at milking time when they are getting all the grass and clover they want. Mr. Taylor has a 100-acre permanent pasture developed for his registered herd of Jerseys as a demonstration with W. H. DuFuy, county agent. Because the pasture is getting so good the herd can't keep it grazed down, Mr. Taylor plans to divide it into several smaller pastures and start a pure bred beef herd. Included in the pasture is a former 20-acre dense thicket made into good pasture by clearing out and sowing to dallis, rescue and Bermuda grasses, and to burr and yellow blooming sweet clovers. He has also budded the pecans in the thicket to improved varieties for supplying shade to cattle and an additional revenue from pecan sales.

MUSINGS OF A MINISTER.

By Raymond Vernimont,
Catholic Priest.

Dr. Ponchot, a French doctor, says: "Few people really know what a good hearty laugh will do for them. It reacts upon the whole organism, lowers the diaphragm, compresses the stomach, massages the liver, inflates the lungs and aids the digestion. Under the influence of sincere laughter the heart beats faster, the circulation is better and by accelerating respiration our whole organism is heated and aided as it were." These are plain words. The French are noted for using plain language. No dictionary is needed to understand them. Why is there so much nervousness and sickness in this country? Americans have lost the art of laughing. They consider laughter as rude. Did God make a mistake? Kind friend, when feeling blue, instead of going to the drugstore, go to your neighbor and have a good laugh. We Americans need more laughter, more music, more walking, more work. Then there will be less sickness and suicides. Let us take time to laugh and be sociable.

M M

The convict in prison is the forgotten man. Today there is much seeking after the forgotten man. Some say the soldier is that man. Some find him in the farmer. Others find him in the factory, but does anyone find him in the prisons or penitentiaries? Put a man in prison, guilty or not guilty, and in a week no more mention is made of him. On the last day, Christ will say: "I was in prison and you visited Me." Who visits prisons today? Only God knows the dreary and lonely life which is lead by those men caged in like wild animals. Can they improve when deprived of God, sunlight, and pure refreshing air? We need a society under this title, "Jail Visitors", to console those brothers and sisters who fell by the wayside.

M M

Dr. H. Van Dyke, recently departed for the better world, said: "What we need today is not a new set of Ten Commandments from a professor of sociology, but a truer understanding of the old ones and a stronger will to keep them." What the modern age lacks is not a new concept of God, scientifically defined, but a deeper sense of His presence in the world and in our hearts, and a more adventurous resolve to make Him known to our fellowmen in Christ. Golden words, which we Americans should ponder. Do all Americans know these ten laws of God? How many among us are convinced that God is close to us and sees our acts and reads our thoughts? Would it not be more beneficial if our boys and girls were to study the ten laws of God rather than lose their time in the study of evolution of the human race? Let us know the ten laws of God and practice them; then human laws will not be needed.

M M

Pope Leo XIII in his famous essay on "Conditions of Labor", says: If a workman accepts harder conditions because of fear or any other evil, he is the victim of social injustice. Are not such sins still numerous at the present time? Are there not heartless employers who offer starvation wages to the jobless and expect thanks for their miserly gift? Such men are a menace to society and should be punished. The day is near at hand when exploiters of the poor laborers will be put behind iron bars where they belong. Honor to Mrs. Pinchot, wife of Governor Pinchot, who carried the banner for the striking girls who were compelled to work in sweatshops for \$1.15 a week or less. Shame on heartless men who draw blood out of children to fill their purses. The Bible says: "To deprive laborers of their wages is a sin which cries to heaven for vengeance."

Robert Quillen, the well known essayist, says: "All experience has shown that there is no hope for mankind except in Jesus of Nazareth." These words are plain and need no explanation. What a blessing if all Christian pulpits in this and all other countries used these solemn words as a text for their sermons. Christ said two thousand years ago: "Without Me you can do nothing." Russia cast out Christ, their best friend; now they have starvation and chaos and spiritual darkness. May Jesus Christ avert such a tragedy in this country. God be blessed, President Roosevelt sees his limitations and is not ashamed to invoke Christ to come to his assistance during these days which test men's souls. May he repeat the prayer of King Solomon who prayed for wisdom and not for temporal goods only.

M M

Governor Murrey of Oklahoma a few days ago expressed these words: "Far from discouraging independent colleges that are under religious control from giving their students moral training and instruction, I would encourage them. As a matter of fact, too little attention is now paid to character forming influence in State education." This will be news to many of our citizens. Indeed many educators see the need of giving our children a religious training, since character cannot be durable if not founded on religion and the ten laws of God. It is possible that other governors will see as Governor Murrey sees that religion is an absolute necessity if the crime wave is to come to an end. If our citizens fear only the police, and forget that God sees them, what will they do when the police is not at hand?

M M

The poet, Kipling, says:
"If I were hanged on the highest hill,
I know whose prayers would help me still,
Mother O Mine, oh, Mother O Mine.
If I were doomed both body and soul,
I know whose prayers would make me whole,

Mother O Mine, oh, Mother O Mine."
What a blessing if every boy and girl knew these poetic words by heart. Would not many a prodigal son or wayward daughter be brought back to their weeping mothers, when they remembered those words which they learned in their childhood days. It is said that 64,000 American girls disappear each year. Have they all been kidnapped? Would this tragedy occur if girls knew the worth of their mothers? Would sons allow their mothers to spend their declining years in poor houses if they had been taught those sweet words which Kipling expressed.

M M

Chapman says: "Let no man esteem at a little price a virtuous woman's council; her winged spirit is furthered oftentimes with heavenly words." These words in these days are very opportune since women are occupying high positions among the rulers of our country. This must be a very trying ordeal for some of them. Will they be able to express themselves fearlessly before an audience of men who may not approve of women giving them instructions and good counsel. There are still too many men among us who look upon women as inferior to them in mind and heart. The old Romans denied that women had souls. Before God all souls are equal and it might be said that as far as the heart is concerned women surpass men. Women are more spiritual, more sympathetic and less material. Their desire is to produce a better world for their children which they produced with so much pain and sorrow. Listen to the women.

M M

Clarence Darrow says: "There is nothing in the history of the world that ever cheapened life as war and next to that the indiscriminate killing of men by the State. If the State wishes its citizens to respect life it should stop killing them." These solemn words will live after Mr. Darrow is in the grave. It is hard to understand how human beings can enjoy killing each other. As a rule

dogs, among themselves, live in peace and enjoy each others company. But human beings created after God's image and likeness cannot live in peace and cooperate with each other. God be blessed. Young men in England have formed a society under this slogan, "We will fight neither for King nor country". May such a society soon be started in this country. If young men refuse to fight, wardogs may terrorize over them but they will only be crying in the wilderness.

THE CHRIST-LIKE UTTERANCE OF A GREAT CHRISTIAN.

(R. R. Claridge in Monthly News Bulletin of Texas Agricultural Department.)

The man who recently gave utterance to the following is still in bad with the place-hunting, time-serving politicians. He is not very strong with the two-by-four editors who exhibit their real smart lack of sense by making fun of him in the small-type columns of the daily papers. But there is still plenty of room for him in the hearts of millions of American people, who love him for the enemies he makes. His name is William Jennings Bryan, whose greatness belongs to the whole wide world; and here is what he recently said:

"War arouses all the brute in man and a flood of passion drowns all kindly feeling. War creates a profession that perfects itself into a science. War creates standards of honor as false as those which supported dueling. War teaches that revenge is a virtue and retaliation a patriotic duty.

"Those who are enriched by war propagate the most absurd theories, for what could be more absurd than the theory studiously spread abroad in the world for a generation that preparedness prevents war? This theory could never appeal to any but militarists and munition makers.

"Now that these blood-stained doctrines have been refuted by the most awful of wars, the world, groaning under burdens too grievous to be borne, may be willing to accept brotherhood as the only hope of peace, as well as the only escape from bankruptcy.

"Were the scribes of old any worse than the profiteers of today, who steal from the provisions basket and rob the wardrobe? Were they any worse than the business men whose policy of poisoning for profit made pure food laws necessary? Were they any worse than the employers, who but for the law would coin the lives of little children into larger dividends? Were they any worse than the men who plunder the wheat fields of the land by depressing prices just before harvest time?

"All dealings between man and man are either brotherly or brutal. There is no middle ground. One may be a very weak brother or a very feeble brute, but each person is consciously or unconsciously controlled by the sympathetic spirit of brotherhood or hunts for spoil with the savage hunger of the beast of prey."

The above was taken from a ten-year old issue of Bryan's Commoner, and is as appropriate today as when it first came from its writer's soft pencil.

"THE MARK-DOWN OF MORALITY."

"Are we to condone, and even officially encourage, the breaking of promises?—The essence of business and political and professional morality is in the kept word—When a nation blandly declines to pay its obligations to another nation; when a government suggests to the citizen that he can repudiate without losing his good name, at that moment moral fibers become flabby, guide-posts vanish and national disintegration sets in—No course could be too drastic which would preserve for this nation its timehonored conception of reliability and dependability, of the sacredness of the promised word."—Merle Thorpe, in Naton's Business

PARAGRAPHIC POT-SHOTS

Except for blind, unreasoning partizanism; that is, one party fighting the other right or wrong, and the selection of candidates distinguished more for their good looks and the noise they make than what they stand for, our country would not be as it is, a cross between bureaucracy and bolshevism, with a well-meaning dictator doing his best to get us out of it, and fought at every turn by the pliant tools of financial piracy in both parties.

Do you get my meaning? I'll see if I can make it plainer: when we cease to shut our eyes and vote the ticket regardless, the few job-hunters who make it up will be more careful about who goes on the ticket.

I forgot whether I romped on the never-ending gabble of the credit-men about "credit, credit, credit," with never a word about cash, except to oppose governmental turning loose of any. If I did in Farming, go after the gang that wants the world run on credit and nothing but, it won't hurt to rub it in a bit. Credit has busted more nations, states, towns, banks, merchants, farmers, and everybody else, than any other one thing.

And, turned over to the credit men by the politicians, backed by the credit men, the old U. S. has been run a long time on credit, and see what it has brought us to. When credit was at its peak, and our legislators could see no end to it; and while the job-holders were fattening on tax-money; and the credit men ditto on ten percent interest; and the tax and interest paying suckers were sleep-

ing the sleep from which they woke with a yell for credit, and none in sight or hearing, then what? "You all" know what; there was not even anything much to eat and wear in sight. There was a "surplus" of both, but it was not in sight, and big business has kept the country naked and hungry about three years, with the idea that the surplus may be brought out of hiding without either cash or credit. But it is still "out o' sight."

But when all over the country, the towns, counties, and even the states, began to issue their own money, putting it into circulation, the money-mongers began to wake up to the fact that their robber credit policy had reached the limit of its stranglehold on the people, with the result that even the Pierpont Morgan syndicate crawled down off its lordly perch with a statement in substance, that some inflation of cash-money would be a good thing. Maybe the fact that the president of the biggest bank in the nation is off his job, and under bond for swindling; or that the Morgan bunch, its high and mighty self, is threatened with a senate investigation, had something to do with causing it to roost on a lower limb, all of a sudden.

And none too soon, as about the first thing that would have happened would have been a wholesale and retail repudiation of two hundred billions of bonds and other forms of indebtedness, with creditors of the Morgan-Mellon caliber exported, if any country could have been found to receive them duty-free.

Mr. and Mrs. Alphonse Boog, Miss Sylvia Tondre and Mr. Joe Mueller spent Sunday in Del Rio.

Mrs. F. J. Rothe is in the Medina Hospital, Hondo, for rest and medical attention.

COMMENCEMENT EXERCISES.

The graduation exercises of St. Anthony's School were held in the Parish Hall on the evening of Friday, May 26. The stage was a beautiful setting with its garden backdrop, while the stately orchid gladioli, class flower, used in abundance about the stage, added dignity to the scene.

Each basket was further adorned with a huge bow in the class colors, orchid and silver.

To the strains of Meyerbeer's "Coronation March" the graduates of the elementary and high school departments filed through the center aisle to places reserved for them.

Girls of both classes were in crisp white gowns, those of the Elementary Grade carrying arm bouquets of orchid gladioli.

"In Music" by Franklin was an ensemble number played by Regina Richter on the violin, Jacob Waynand on the guitar, Lou's Richter on the mandolin, and Stella Finger on the piano.

Irene Poerner gave a reading, entitled "After Twenty Years". Grammar Grade certificates were awarded to Gladys Richter, Rosemary Albrecht, Melvora Rothe, Regina Richter, Edward Finger, Oscar Rohrbach, and Joseph Kohn.

The entire high school sang "Water Lilies" by Linders, and this was followed by a violin solo by Regina Richter.

The Eleventh Grade sang "Kentucky Babe" in four parts, thus proving an unusual feature.

Previously received by the audience. It preceded the awarding of diplomas to the following members of the Eleventh Grade: Lorine Zinsmeyer, Verene Finger, Bernice Carle, Armine Fohn, Mervin Poerner, Casper Rohrbach, Francis Koch and Francis Ontiveros. In presenting diplomas, Mr. W. E. Albrecht substituted for Father Meas, who was unavoidably absent. Vivian Bry and David Zinsmeyer acted as pages.

Mr. Albrecht also made the address and in his able manner gave wise counsel to the graduates, exhorting them to lead lives of sincerity and religious fervor. He pointed out the value of higher education, giving advice as to the use of good literature in the absence of college training.

The class recessional closed the exercises.

LONGHORNS 7; TRIO 1.

The Longhorns came through with another big lead when they defeated Trio in the latter's return game Sunday on the local diamond.

Because of threatening rain and the late arrival of the opponents, only seven innings were played. Three walks in succession in the first inning, followed by several hits, soon piled up a winning lead for the Steers.

A snappy game was played, each club making only one error. H. Fohn struck out eleven men, while J. Griffin of Trio struck out eight.

Latest in Home Construction Displayed in "Wonder House"

SHOWN above is a bed room in a "wonder house" in New York which is being visited daily by an average of 5,000 persons interested in seeing the newest in home construction and furnishing. The house, erected through the cooperation of a national magazine, a department store, a contractor and a group of manufacturers, is insulated and air-conditioned; the swinging door between the dining room and kitchen is operated by an "electric eye"; and the modern bed room floor illustrated in the photograph is composed of blocks of pressed wood with in-built shock-absorbers to combine softness, beauty and a hard, smooth surface.

New Office Building Gives More Room for Legislators

MEMBERS of Congress soon will be unable to blame tardiness upon their time-pieces for the new House Office Building, to be occupied within several weeks, will be equipped with 263 synchronous electric clocks without a second's variation in the lot. There will be a clock in each of the 251 suites and twelve committee rooms, all of them automatically controlled in the event of current interruption by a central telechron mechanism.

Nor will members have any excuse for missing roll-calls since there is a system of buzzers connecting all the office suites. When a roll-call is started in the House chamber, or when the House adjourns or recesses, the buzzer will sound in each of the offices.

The new building, a beautiful white marble structure of seven office stories, was built as a part of the Government building program to provide employment and at the same time to fill a long-felt need of the nation's law-makers for more room.

About half of the members of the House, chosen on the basis of length of service, will occupy it. The others, mostly new members, will remain in the old building but they, too, will have more room because the offices vacated by those who move will be placed at their disposal.

For every dollar's worth of feed given his 54 dairy cows in a recent month, George Slaughter of Wharton county received \$1.54 in returns, it is reported by J. O. Graham, county agent. The 39 cows in production averaged 23 pounds of butterfat per cow, and the six best ones produced more than 38 pounds each for the month.

The ration consisted of ground hegarri bundles, cold pressed cake, and a commercial feed, in the proportion of 15-11-4. Mr. Slaughter is one of 32 Wharton county dairy farmers testing cows and keeping records on their herds which are managed as demonstrations in cooperation with the county agent.

MAKING RUBBER OUT OF BRICKS

No folks, it isn't done that way. If someone told you that automobile tires were baked in a brick kiln or grew in a bed of roses, you would give them the celebrated "Horse Neigh."

Utility rates are not based on stocks and bonds or holding companies or Wall Street manipulations. When you hear someone say so, just put it down that he doesn't know the facts or is mis-stating them.

The rates for your utility service are based on the value of the property used and usable in rendering that service.

THE STATE OF TEXAS.
To the Sheriff or any Constable of Medina County, Greeting:

W. H. Bowman, Administrator of the Estate of J. M. Bright, deceased, having filed in our County Court his Final Account of the condition of the Estate of said J. M. Bright, deceased, numbered 791 on the Probate Docket of Medina County, together with an application to be discharged from said Administration.

YOU ARE HEREBY COMMANDED, That by publication of this writ for ten days in a Newspaper printed in the County of Medina you give due notice to all persons interested in the Account for Final Settlement of said Estate, to appear and contest the same if they see proper so to do, on Monday the 12th day of June A. D. 1933, at the Court House of said County, in Hondo, Texas, when said Account and Application will be acted upon by said Court.

Given under my hand and seal of said Court, at my office in the town of Hondo, Texas, this 21th day of May A. D. 1933.

S. A. JUNGMAN,
Clerk, County Court Medina County.

I hereby certify that the above and foregoing is a true and correct copy of the Original Writ now in my hands.

C. J. SCHUEHLE,
Sheriff Medina County.

OBSERVATION FROM NATURE.

"Every time the sheep bleats it loses a mouthful of grass."

It is a tragic fact that most human beings are actually driving away the very thing they are pursuing, killing their fondest hopes, thwarting their ambition and much of their lives, without being conscious of it, because they do not know the terrific power of thought; they do not know that their mental attitude at any time is the pattern which is being built into their life, which becomes a part of their career. They do not know that every time they indulge in a fit of the blues, that every time they succumb to despondency, or to discouragement, that every time they doubt, they are like the bleating sheep which loses a mouthful of hay. They are losing ground, dropping something valuable.—Printing Increase.

IN MEMORIAM.

Mr. Joe Weiss died at his home at Noonan Monday, May 22nd, 1933, at 5:00 A. M., after an illness of several months duration. Mr. Weiss was born in Hagenaue, Alsace, on Sept. 29, 1859, and arrived in this country with his mother and sister in the year 1874.

He was married to Miss Sybil Bendele, Jan. 20th, 1891. To this union 9 children were born, 5 boys and four girls, namely: Joe, who died in the conflict of the world war, Frances (Mrs. Willie Britsch), Mary (Mrs. Martin Schneider), Laura (Mrs. Eddie Bendele), Miss Elizabeth Weiss, Emil, Thomas, Leo and Anton Weiss.

Besides his widow and children, he leaves surviving him many other near and dear relatives to mourn his passing.

Mr. Weiss was a good husband and father, a kind neighbor, and his death cast a gloom over the entire community when it became known that he had passed away.

The corpse was brought to Castroville Tuesday, May 22nd, and the funeral was held at 9:30 A. M. from the St. Louis Catholic church and after a Requiem Mass was interred in the St. Louis cemetery, where he now rests in peace.

Pall bearers were Raymond, Eugene, Joe and Erwin Bendele, Willie Weber and Frank Rihn.

CARD OF THANKS.

We wish to take these means to thank all our relatives and friends who so kindly assisted us during the illness and death of our beloved husband and father, Joe Weiss. We also wish to thank all those who attended the funeral and for the floral and spiritual offerings. We wish to thank Reverend Father Lenzen for his comforting words. The kind acts shown and the sympathy expressed will always be remembered.

MRS. JOE WEISS,
And Children.

GARNISHES REFLECT SEASON OF THE YEAR.

"The seasons of the year can be represented by garnishes," says Inez S. Wilson, home economist. And in addition, variety can be added to the meat dish by the selection of a different garnish. However, there are a few points to keep in mind when choosing these garnishes—always select ones which are edible, complementary in flavor and texture to the meat, and sufficiently different in color to be pleasing in appearance.

Here are some garnishes for meats which suggest the color of spring.

1. Lamb—Mint leaves; Mint jelly; circles of baked oranges in water-cress; slices of pineapple; parsley.

2. Beef—Wreath of watercress; celery curls on lettuce; small pickles sliced lengthwise; green peppers or pimientos, cut in ribbons; green peas.

3. Pork—Apple rings; celery round, bright red radishes; celery stalks cut in 2-inch pieces, then fringed and place in ice water to open; cucumber baskets; fried banana slices with parsley; lettuce leaves rolled tightly and cut into ribbons; tomato sauce.

Increased interest in hog raising as a result of the widespread home meat canning campaign is indicated in the findings of Roy W. Snyder, meat specialist at A. and M. College. In 1930 the Texas hog population was considerably below 1,000,000. In 1932 this had climbed to approximately 1,500,000 head. In 1932 Texas farmers killed 53,044 hogs to be cured and canned by themselves.

When eggs dropped in price this spring many Blanco county farmers began selling off their hens, but not the poultry demonstrators working with the county agent. These owners took a look at last year's records and noted that although prices took a similar drop one year ago the flocks made pretty fair money for the year. They decided to keep their hens.

Why Use a Bladder Physi?

To drive out impurities and excess acids that cause irritation which results in getting up nights, frequent desire, burning, leg pains or backache. BU-KETS, the bladder physi, works pleasantly on the bladder as castor oil on the bowels. Get a 25c test box from your druggist. After four days if not relieved go back and get your money. You will feel better after this cleansing and you get your regular sleep.
